

The District 200 Gifted Math Program's academic rigor includes grade level materials as well as enrichment and acceleration at grades three, four and five.

Identification of students for participation in the Gifted Math Program is as follows:

- Students are invited to participate in Gifted Program testing through parent **or** teacher recommendation.
- Classroom teachers complete Student Profiles on students in their classrooms. **Parents recommending a child for testing complete a Parent Referral Form.** You may print out the form by visiting the Parent Referral Form link.

On the District 200 website www.cusd200.org under *Educational Services > Special Programs > Gifted Education Program > Parent Referral Forms.*

- Students who participate in testing are given quantitative and non-verbal portions of the *Cognitive Abilities Test* and the mathematics portion of the *Comprehensive Testing Program 4*.
- Information gathered from this process is reviewed by a District 200 committee who makes the final selection of students for the program. The Elementary Gifted Math Program is designed for students with exceptional abilities; therefore, not all of the students tested will qualify for the program.

The mathematics testing will take place in the spring for placement the following School Year. Make up testing dates are available for students new to the district or students who were absent for the spring testing.

You may call the Gifted Office if you have any questions, 630-682-2024.
