

Keep your eyes on the stars, and your feet on the ground.

--Theodore Roosevelt

MATH $\times \div$

We continued learning about multi-digit subtraction by practicing with three digits and subtracting across zeros. Next week we will review, take the summative test, and move into our multiplication unit. Please continue to practice facts nightly at home.

ELA □

This week our comprehension strategy focus was compare/contrast. We reviewed main idea and details in our reading strategy groups. Next week we will continue with the compare/contrast strategy. In STORYWORKS we worked on answering questions about a fable we read (The Lion and the Mouse) and compared it to an article and book about Owen and Mzee, a tortoise and hippo, who become friends.

After learning about ideas, organization, word choice, sentence fluency, and voice in writing over the past few weeks, we began writing an opinion piece that we are going to turn into a Google slideshow. We completed writing the five paragraphs this week. Next week we will work on editing and revising.

This week we learned about what an adjective is and went on an adjective hunt. We are trying to recognize interesting adjectives in our reading and use them in our writing.

SOCIAL STUDIES

We completed our Google slideshows this week and will be presenting them to the class. Everyone did an amazing job!

Reminder: The Midwestern State test is October 16.

THINGS TO NOTE ◻

- If you have not signed and returned your child's Mid-Term Progress Report, please do so as soon as possible.

**No School on Monday, October 12th
Columbus Day**

Enjoy the weekend!
