

Grade 5 PACE Math

Student:

<b>Ratios and Proportional Relationships</b>	T1	T2	T3
Identify, represent and extend ratios (6th - T1/7th - T2)			
Use ratio and rate reasoning to solve problems (6th - T1/7th - T2&T3)			
Solve problems involving percents (6th - T1/7th - T3)			
<b>Number System</b>	T1	T2	T3
Fluently compute using whole numbers			
Fluently compute using fractions and mixed numbers			
Fluently compute using decimal numbers			
Identify, represent, and compare positive and negative numbers			
Fluently compute using positive and negative numbers			
<b>Expressions and Equations</b>	T1	T2	T3
Read, write and evaluate numerical expressions			
Reason about and solve equations and inequalities			
Identify and generate equivalent expressions			
<b>Geometry</b>	T1	T2	T3
Solve problems involving area of polygons			
Solve problems involving surface area of prisms and pyramids			
<b>Statistics and Probability</b>	T1	T2	T3
Display numerical data			
Summarize numerical data sets			
<b>Achievement is affected by lack of fact fluency (x)</b>			

Key:  = not assessed this trimester

Community Unit School District 200

130 West Park Avenue, Wheaton, IL 60189 \* P:630.682.200 \* cusd200.org
