INSTRUCTIONS/REQUIREMENTS: For School Districts/Joint Agreements

All School Districts/Joint Agreements must complete this form (Note: joint agreement supplementary/statistical schedules may not be applicable)

Round all amounts to the nearest dollar. Do not enter cents. (Exception: 9 Month ADA on page 28, line 78)

This form complies with **Part 100 (Requirements for Accounting, Budgeting, Financial Reporting, and Auditing)**.

[23. Illinois Administrative Code 100, Subtitle A, Chapter I, Subchapter C \(Part 100\)](#)

Any errors left unresolved by the **Audit Checklist/Balancing Schedule** must be explained in the itemization page.

Submit AFR Electronically

* The Annual Financial Reports (AFR) must be submitted directly through the Attachment Manager to the AFR Group by the Auditor or School District designated personnel (Please see Instructions for complete submission procedures).

[Attachment Manager Link](#)

Note: CD/Disk no longer accepted.

* AFR supporting documentation must be embedded as Microsoft Word (.doc), Word Perfect (*.wpd) or Adobe (*.pdf) and inserted within tab "Opinions & Notes". These documents include: The Audit, Management letter, Opinion letters, Compliance letters, Financial notes etc.... For embedding instructions see "Opinions & Notes" tab of this form.

Note: Adobe Acrobat (*.pdf) files cannot be embedded if you do not have the software. Simply attach files as separate docs in the Attachment Manager and they will be embedded for you.

Submit Paper Copy of AFR with Signatures

1) The auditor must send three **paper** copies of the AFR form (cover through page 8 at minimum) to the School District with the auditor signature.

Note: School Districts and Regional Superintendents may prefer a complete paper copy in lieu of an electronic file. Please comply with their requests as necessary.

2) Upon receipt, the School District retains one copy for their records, signs, and forwards the remaining two copies to the Regional Superintendent's office no later than October 15, annually.

3) Upon receipt, the Regional Superintendent's office retains one copy for their records, signs, and forwards the remaining paper copy to ISBE no later than November 15, annually.

* Yellow Book, CPE, and Peer Review requirements must be met if the Auditor issues an opinion stating "Governmental Auditing Standards" were utilized.

[Single Audit Act A-133](#)

Qualifications of Auditing Firm

* School District/Joint Agreement entities must verify the qualifications of the auditing firm by requesting the most current peer review report and the corresponding acceptance letter from the approved peer review program, for the current peer review period.

* A school district/joint agreement who engages with an auditing firm who is not licensed and qualified will be required to complete a new audit by a qualified auditing firm at the school district's/joint agreement's expense.

PART D - EXPLANATION OF ACCOUNTING PRACTICES FOR LATE MANDATED CATEGORICAL PAYMENTS

(For School Districts who report on an Accrual/Modified Accrual Accounting Basis only)

School districts that report on the accrual/modified accrual basis of accounting must identify where late mandated categorical payments (Acct Codes 3100, 3105, 3110, 3500, and 3510) are recorded. Depending on the accounting procedure these amounts will be used to adjust the Direct Receipts/Revenues in calculation 1 and 2 of the Financial Profile Score. In FY2015, identify those late payments recorded as Intergovernmental Receivables, Other Recievables, or Deferred Revenue & Other Current Liabilities or Direct Receipts/Revenue. Payments should only be listed once.

24. Enter the date that the district used to accrue mandated categorical payments

Date: 12/31/2015

25. For the listed mandated categorical (Revenue Code (3110, 3500, 3510, 3100, 3105) that were vouchered prior to June 30th, but not released until after year end as reported in ISBE FRIS system, enter the amounts that were accrued in the chart below.

Account Name	3110	3500	3510	3100	3105	Total

2	New Provisions in the School Code, Section 17-1 (105 ILCS 5/17-1)								
3	<p>Instructions: If the Annual Financial Report (AFR) reflects that a "deficit reduction plan" is required as calculated below, then the school district is to complete the "deficit reduction plan" in the annual budget and submit the plan to Illinois State Board of Education (ISBE) within 30 days after accepting the audit report. This may require the FY2014 annual budget to be amended to include a "deficit reduction plan" and narrative.</p>								
4	<p>The "deficit reduction plan" is developed using ISBE guidelines and format in the School District Budget Form 50-36. A plan is required when the operating funds listed below result in direct revenues (line 7) being less than direct expenditures (line 8) by an amount equal to or greater than one-third (1/3) of the ending fund balance (line 10). That is, if the ending fund balance is less than three times the deficit spending, the district must adopt and submit an original budget/amended budget with ISBE that provides a "deficit reduction plan" to balance the shortfall within the next three years.</p>

A-133 SINGLE AUDIT INFORMATION CHECKLIST

The following checklist is **OPTIONAL**; it is not a required form for completion of A-133 Single Audit information. The purpose of the checklist is to assist in determining if appropriate information has been correctly completed within the Annual Financial Report (AFR). This is not a complete listing of all A-133 requirements, but highlights some of the more common errors found during ISBE reviews.

GENERAL INFORMATION

1. **Signed** copies of audit opinion letters have been included with audit package submitted to ISBE.
2. All opinion letters use the **most current audit language and formatting** as mandated in SAS 115/SAS 117 and other pronouncements.
3. **All** Single Audit forms within the AFR Excel workbook have been completed, where appropriate.
 - For those forms that are not applicable, "N/A" or similar language has been indicated.
4. **All** Federal revenues reported in FRIS Report 0053 (Summary of Payments) are accounted for in the Schedule of Expenditures of Federal Awards (SEFA).
 Programs funded through ARRA are identified separately in SEFA
5. Federal revenues reported on the AFR reconcile to Federal revenues reported on the SEFA.
 - Verify or reconcile on reconciliation worksheet.
6. The total value of non-cash **COMMODITIES** has been included within the AFR on the **INDIRECT COSTS** page (ICR Computation 30) on Line 11. It **should not** be included in the Statement of Revenues Received (REVENUES 9-14) within the AFR Accounts 4210 - 4299. Those accounts are specific cash programs, not non-cash assistance such as **COMMODITIES**.
7. Complete audit package (Data Collection Form, audit reports, etc.) has been submitted electronically to the Federal Audit Clearinghouse in Jeffersonville, Indiana.

SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

8. Programs funded through ARRA (Federal Stimulus funds) are identified separately from "regular" Federal programs
 - Program name includes "ARRA - " prefix
 - Correct ARRA CFDA and ISBE program numbers are listed
9. All prior year's projects are included and reconciled to final FRIS report amounts.
 - Including receipt/revenue and expenditure/disbursement amounts.
10. All current year's projects are included and reconciled to most recent FRIS report filed.
 - Including revenue and expenditure/disbursement amounts.
11. Differences in reported spending amounts on the SEFA and the final FRIS reports should be detailed and/or documented in a finding, with discrepancies reported as Questioned Costs.
12. Prior-year and Current-year Child Nutrition Programs (CNP) are included on the SEFA (with prior-year program showing total cash received):
 Project year runs from October 1 to September 30, so projects will cross fiscal year;
 This means that audited year revenues will include funds from both the prior year and current year projects.
13. Each CNP project should be reported on separate line (one line per project year per program).
14. Total CNP Revenue amounts are consistent with grant amounts awarded by ISBE for each program by project year.
15. Total CNP Expenditure amounts are consistent with grant amounts awarded by ISBE for each program by project year.
16. Exceptions should result in a finding with Questioned Costs.
17. The total value of non-cash **COMMODITIES** has been reported on the SEFA (CFDA 10.555).
 - The value is determined from the following, **with each item on a separate line**:
- * **Non-Cash Commodities**: Monthly Commodities Bulletin for April (From the Illinois Commodities System accessed through ISBE web site)
 Total commodities = A PAL Allocated + B PAL Allocated + Processing Deductions + Total Bonus Allocated
 Verify Non-Cash Commodities amount on ISBE web site: <http://www.isbe.net/business.htm>.
- * **Non-Cash Commodities**: Commodities information for non-cash items received through **Other Food Services**
 Districts should track separately through year; no specific report available from ISBE
 Verify Non-Cash Commodities amount through Other Food Services on ISBE web site: <http://www.isbe.net/business.htm>.
- * **Department of Defense Fresh Fruits and Vegetables** (District should track through year)
 - The two commodity programs should be reported on separate lines on the SEFA.
 Verify Non-Cash Commodities amount through DoD Fresh Fruits and Vegetables on ISBE web site: <http://www.isbe.net/business.htm>.
- * Amounts verified for **Fresh Fruits and Vegetables cash** grant program (ISBE code 4240)
 CFDA number: 10.582
18. **TOTALS** have been calculated for Federal revenue and expenditure amounts (Column totals).
19. Obligations and Encumbrances are included where appropriate.
20. **FINAL STATUS** amounts are calculated, where appropriate.
21. Medicaid Fee-for-Service funds, E-Rate reimbursements and Build America Bond interest subsidies have **not** been included on the SEFA.
22. **All** programs tested (not just Type A programs) are indicated by either an * or (M) on the SEFA.
23. **NOTES TO THE SEFA** within the AFR Excel workbook (SEFA NOTES) have been completed.
 Including, but not limited to:
24. Basis of Accounting
25. Name of Entity
26. Type of Financial Statements
27. Subrecipient information (Mark "N/A" if not applicable)
- * ARRA funds are listed separately from "regular" Federal awards

SUMMARY OF AUDITOR RESULTS/FINDINGS/CORRECTIVE ACTION PLAN

28. Audit opinions expressed in opinion letters match opinions reported in Summary.
29. **All** Summary of Auditor Results questions have been answered.
30. All tested programs are listed.
31. Correct testing threshold has been entered. (OMB A-133, §.520)

Findings have been filled out completely and correctly (if none, mark "N/A").

32. Financial Statement and/or Federal Awards Findings information has been completely filled out for each finding, with finding numbers in correct format.
32. Finding completed for **each Significant Deficiency** and for **each Material Weakness** noted in opinion letters.
33. Separate finding for each Federal program (i.e., don't report same finding for multiple programs on one sheet).
34. Separate finding sheet for each finding on programs (e.g., excess interest earned and unallowable expenditures are two findings and should be reported separately, even if both are on same program).
35. Questioned Costs have been calculated where there are questioned costs.
36. Questioned Costs are separated by project year **and** by program (and sub-project, if necessary).
37. Questioned Costs have been calculated for Interest Earned on **Excess Cash on Hand**.
 - Should be based on actual amount of interest earned
 - Questioned Cost amounts are broken out between programs if multiple programs are listed on the finding
38. **A CORRECTIVE ACTION PLAN** has been completed for each finding.
 - Including Finding number, action plan details, projected date of completion, name and title of contact person

SECTION II - FINANCIAL STATEMENT FINDINGS

1. **FINDING NUMBER:**¹¹ 2015- 001 2. **THIS FINDING IS:** New Repeat from Prior Year?
 Year originally reported? 2007

3. Criteria or specific requirement

The maintenance of current capital asset records ensures their proper recording in the financial statements.

4. Condition

Currently, the District is accounting for its capital assets and related depreciation at year-end with assistance from the auditor.

5. Context¹²

The District does not have a process in place to track capital asset additions and deletions, or accumulated depreciation.

6. Effect

Maintaining a current, complete list of capital assets guards against asset misappropriation and material misstatements of the financial statements. Such a system is also part of an effective system of internal control.

7. Cause

The District does not have a process in place to track capital asset additions and deletions, or accumulated depreciation and relies on the assistance of the auditor at year-end.

8. Recommendation

We recommend that management develop policies and procedures for maintaining a current capital asset listings. This includes implementing procedures which identify fixed asset additions and deletions and calculation of depreciation.

9. Management's response¹³

See corrective action plan.

¹¹ A suggested format for assigning reference numbers is to use the digits of the fiscal year being audited followed by a numeric sequence of findings. For example, findings identified and reported in the audit of fiscal year 2015 would be assigned a reference number of 2015-001, 2015-002, etc. The sheet is formatted so that only the number need be entered (1, 2, etc.).

¹² Provide sufficient information for judging the prevalence and consequences of the finding, such as relation to universe of costs and/or number of items examined and quantification of audit findings in dollars.

¹³ See paragraphs 5.18 through 5.20 and 7.38 through 7.42 of Government Auditing Standards for additional guidance on reporting management's response.

ACCOUNTANTS AND CONSULTANTS

INDEPENDENT AUDITORS' REPORT ON SUPPLEMENTARY INFORMATION

The Members of the Board of Education
Community Unit School District 200
Wheaton, Illinois

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Community Unit School District 200 (District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 14, 2015, which contained unmodified opinions on those financial statements. Our audit was performed for the purpose of forming opinions on the financial statements as a whole.

The accompanying Annual Financial Report is presented for purposes of additional analysis and is not a required part of the financial statements. As described more fully in Note A, these regulatory-based financial statements are issued to comply with regulatory provisions prescribed by the Illinois State Board of Education, which is a basis of accounting other than, and differs from, accounting principles generally accepted in the United States of America. They are intended to assure effective legislative and public oversight of school district financing and spending activities of accountable Illinois public school districts. The effects on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

The accompanying Basic Financial Statements, Supplementary Schedules, and Notes to Financial Statements, as listed in the table of contents, are the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the financial statements. That information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, that information is fairly stated in all material respects in relation to the financial statements as a whole.

The financial profile information, estimated financial profile summary, statistical section, estimated indirect cost rate for federal programs, report on shared services or outsourcing, administrative cost worksheet, itemization schedule, reference page, deficit reduction calculation, Audit Checklist/Balancing Schedule, A-133 Single Audit Information Checklist, and reconciliation of Federal Revenues have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

The Members of the Board of Education
Community Unit School District 200
Wheaton, Illinois

(Continued)

The answers to questions 1 through 25 contained in the "Auditor's Questionnaire" and related comments on page 2 are based solely on the procedures performed and data obtained during our audit of the basic financial statements of the District, as of and for the year ended June 30, 2015.

Purpose of this Report

The purpose of this report is solely to comply with the regulatory provisions prescribed by the Illinois State Board of Education as described above and in Note A and not intended to be the District's primary presentation of its financial position and changes in its financial position. Accordingly, this report is not suitable for any other purpose.

NOTES TO THE ANNUAL FINANCIAL REPORT
June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Community Unit School District 200 (the District) conform to the regulatory provisions prescribed by the Illinois State Board of Education, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, as applicable to Illinois school districts.

The more significant of the District's accounting policies are described below.

1. **Reporting Entity**

The District is located in DuPage County, Illinois. The District is governed by an elected Board of Education. The Board of Education maintains final responsibility for all personnel, budgetary, taxing, and debt matters.

The District includes all funds of its operations that are controlled by or dependent upon the District, as determined on a basis of financial accountability. Financial accountability includes appointment of the organization's governing body, imposition of will, and fiscal dependency. The accompanying financial statements include only those funds of the District, as there are no organizations for which it has financial accountability.

Also, the District is not included as a component unit in any other governmental reporting entity, as defined by the Governmental Accounting Standards Board (GASB) pronouncements.

2. **Measurement Focus, Basis of Accounting, and Basis of Presentation**

The accounts of the District are organized on the basis of funds and account groups. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts that comprise its assets, liabilities, reserves, fund balance, revenues, and expenditures or expenses as appropriate. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. Account groups are a reporting device to account for certain assets and liabilities of the governmental funds not recorded directly in those funds.

Property taxes, replacement taxes, interest, and intergovernmental revenues associated with the current fiscal period are all considered to be susceptible to accrual and are recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received, by the District.

Community Unit School District 200
NOTES TO THE ANNUAL FINANCIAL REPORT
June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

The District reports deferred revenue on its financial statements. Deferred revenue arises when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the statement of position and revenue is recognized.

The District has the following fund types and account groups:

Governmental funds are used to account for the District's general governmental activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e., when they are both "measurable and available". "Measurable" means that the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District considers most revenues available if they are collected within 60 days after year-end. Revenues that are paid to the District by the Illinois State Board of Education are considered available if they are vouchered by year-end.

Expenditures are recorded when the related fund liability is incurred, except for unmatured principal and interest on general long-term debt, which is recognized when due, and certain compensated absences, claims, and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Funds are classified into the following categories: governmental and fiduciary.

Governmental funds are used to account for all of the District's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the servicing of general long-term debt (debt service fund), and the acquisition or construction of major capital facilities (capital project funds). The General Fund is used to account for all activities of the general government not accounted for in some other fund.

Fiduciary funds (agency fund) are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the District.

NOTES TO THE ANNUAL FINANCIAL REPORT
June 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

The following funds are the District's funds:

a. General Fund

The Educational Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

b. Special Revenue Funds

The special revenue funds are used to account for the proceeds of specific revenue sources (other than those accounted for in the debt service fund or capital projects funds,) that are legally restricted to expenditures for specified purposes.

Each of the District's special revenue funds has been established as a separate fund in accordance with the fund structure required by the state of Illinois, for local educational agencies. These funds account for local property taxes restricted to specific purposes. A brief description of the District's special revenue funds is as follows:

Operations and Maintenance Fund - accounts for revenues and expenditures related to the operations, repair, and maintenance of the District's building and land. Revenues consist primarily of local property taxes.

Transportation Fund - accounts for all revenues and expenditures made for student transportation. Revenues are derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement/Social Security Fund - accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund, payments to Medicare, and payments to the Social Security System for noncertified employees. Revenues to finance contributions are derived primarily from local property taxes and personal property replacement taxes.

Working Cash Fund - accounts for financial resources held by the District to be used as temporary interfund loans for working capital requirements. Money loaned by the Working Cash Fund to other funds must be repaid within one year. As allowed by the School Code of Illinois, this Fund may be permanently abolished and become part of the Educational Fund or it may be partially abated to any fund in need as long as the District maintains a balance in the Working Cash Fund of at least .05% of the District's current equalized assessed valuation.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

c. Debt Service Fund

Debt Service Fund - accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. The primary revenue sources are local property taxes levied specifically for debt service.

d. Capital Project Funds

Capital Projects Fund - accounts for financial resources to be used for the acquisition or construction of major capital facilities. Revenues are derived from bond proceeds or transfers from other funds.

e. Fiduciary Fund

The Fiduciary Funds account for assets held by the District in an agency capacity for individuals, private organizations, other governments, or other funds.

The *Agency Funds* - includes Student Activity Funds. The funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. Although the Board of Education has the ultimate responsibility for Activity Funds, they are not local education agency funds. Student Activity Funds account for assets held by the District which are owned, operated, and managed generally by the student body, under the guidance and direction of adults or a staff member, for educational, recreational, or cultural purposes. They account for activities such as student yearbook, student clubs and council, and scholarships.

3. General Fixed Assets and General Long-Term Debt Account Groups

Account groups are used to establish accounting control and accountability for the District's capital assets and general long-term debt. The accounting and financial reporting treatment applied to the capital assets and long-term liabilities associated with a fund are determined by its measurement focus.

Capital assets have been acquired for general governmental purposes. At the time of purchase, assets are recorded as expenditures paid in the governmental funds and capitalized at cost in the General Fixed Assets Account Group. Donated capital assets are listed at estimated fair market value as of the date of acquisition. Depreciation accounting is not applicable, except to determine the per capita tuition charge. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives and the interest incurred during construction are not capitalized.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. General Fixed Assets and General Long-Term Debt Account Groups (Continued)

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group, not in the governmental funds. The debt recorded in the District's General Long-Term Account Group consists of serial bond issues and long-term retirements liabilities.

The two account groups are not "funds." They are concerned only with the measurement of financial position. They are not involved with measurement of the results of operations.

4. Deposits and Investments

Investments are stated at fair value. Due to the nature of the District's investments, fair value approximates cost. No amortization is made to interest income for discounted federal securities. Gains and losses on the sale of investments are recorded as interest income at the date of sale or maturity.

5. Property Tax Receivable

The District must file its tax levy resolution by the last Tuesday in December of each year. The District's 2014 tax levy resolution was approved by the Board on November 12, 2014. The District's property tax is levied each year on all taxable real property located in the District and it becomes a lien on the property on January 1 of that year. The owner of real property on January 1 (the lien date) in any year is liable for taxes of that year. The District's annual property tax levy is subject to two statutory limitations: individual fund rate ceilings and the Property Tax Extension Limitation Act (PTELA).

The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELA limits the increase in total taxes billed to the lesser of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent that there is "new growth" in the District's tax base. The new growth consists of new construction, annexations, and the tax increment finance district property becoming eligible for taxation.

Property taxes are collected by the DuPage County Collector/Treasurer, who remits to the District, its share of collections. Taxes levied in one year become due and payable in two equal installments: the first due on June 1 and the second due on September 1. Property taxes are normally collected by the District within 60 days of the respective installment dates.

The portion of the 2014 property tax levy not received by June 30 is recorded as a receivable. The receivable collected within the current year or due and expected to be collected soon enough thereafter to be used to pay liabilities of the current period, less the taxes collected soon enough after the end of the previous fiscal year, are recognized as revenue. Net taxes receivable less the amount expected to be collected within 60 days are reflected as deferred revenue.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Personal Property Replacement Taxes

Personal property replacement tax revenues are first allocated to the Municipal Retirement/Social Security Fund with the balance allocated at the discretion of the District.

7. Capital Assets

Capital assets are defined by the District as assets with an initial individual or group cost of more than \$1,000 and an estimated useful life in excess of one years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Depreciation of capital assets is provided over the estimated useful lives using the straight-line method and is reflected for informational purposes only. Depreciation of capital assets is not charged to operations of the District. The estimated useful lives are as follows:

<u>Assets</u>	<u>Years</u>
Building	10 - 50
Land improvements	20
Vehicles	8
Equipment	5 - 20

8. Accumulated Unpaid Vacation and Sick Pay

Under terms of employment, employees are granted sick leave and vacations in varying amounts. Only benefits considered to be vested are disclosed in these statements.

All vested vacation and sick leave pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements, or are payable with expendable available resources.

Payments for vacation and sick leave will be made at rates in effect when the benefits are used. Accumulated vacation and sick leave liabilities at June 30, 2015 are determined on the basis of current salary rates and include salary related payments.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

8. Accumulated Unpaid Vacation and Sick Pay (Continued)

Employees who work a twelve-month year are entitled to be compensated for vacation time. Applicable employees are allowed to carryover earned but unused vacation into the next fiscal year, with certain restrictions.

For governmental funds, the current portion of the compensated absences is the amount that is due and payable from expendable available financial resources. These amounts are recorded in the fund from which the employees who have accumulated vacation leave are paid. Administrators may carry 36 days of vacation time into the next year; any accumulated days in excess of this transfer are lost. Other staff may accumulate 15 days of vacation into the next year, and a maximum of three vacation days may be converted to sick days. Any days in excess of this are lost.

All certified employees receive a specified number of annual sick days, depending on their years of service, in accordance with the agreement between the Board of Education and the Education Association. Unused sick leave may accumulate with no risk of loss. Upon retirement, a certified employee may apply up to 340 days of unused sick leave toward service credit for TRS.

Educational support personnel receive fifteen sick days per year, which accumulate to a maximum of 240 days. The District does not reimburse employees for unused sick days remaining upon retirement or termination of employment.

Due to the nature of the policies on sick leave, and the fact that any liability is contingent upon future events and cannot be reasonably estimated, no liability is provided in the financial statements for accumulated unpaid sick leave.

9. Long-Term Obligations

The District reports long-term debt of governmental funds, at face value, in the General Long-Term Debt Account Group. Certain other governmental fund obligations not expected to be financed with current available financial resources are also reported in the General Long-Term Debt Account Group.

The governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from actual debt proceeds received, are reported as debt service expenditures.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

10. Use of Estimates

In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE B - LEGAL COMPLIANCE AND ACCOUNTABILITY - BUDGETS

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual budgets are adopted at the fund level for the governmental funds. The annual budget is legally enacted and provides for a legal level of control at the fund level. All annual budgets lapse at fiscal year-end.

The Board of Education follows these procedures in establishing the budgetary data reflected in the financial statements:

- a) The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- b) Public hearings are conducted and the proposed budget is available for inspection to obtain comments.
- c) By September 30, the budget is legally adopted through passage of a resolution. By the last Tuesday in December of each year, a tax levy resolution is filed with the County Clerk to obtain tax revenues.
- d) Management is authorized to transfer budget amounts, provided that funds are transferred between the same function and object codes. The Board of Education is authorized to transfer up to a legal level of 10% of the total budget between functions within a fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education after the public hearing process mandated by law.
- e) Formal budgetary integration is employed as a management control device during the year, for the governmental funds.
- f) The budget amounts shown in the financial statements are as originally adopted, by the Board of Education, on September 10, 2014.
- g) All budgets lapse at the end of the fiscal year.

NOTE C - DEPOSITS AND INVESTMENTS

The District's investment policy is in line with State Statutes. The investments that the District may purchase are limited by Illinois law to the following: (1) securities that are fully guaranteed by the U.S. government as to principal and interest; (2) certain U.S. government agency securities; (3) interest-bearing savings accounts, interest-bearing certificates of deposit or time deposits or any other investments constituting direct obligations of any bank as defined by the Illinois Banking Act; (4) short-term discount obligations of corporations organized in the United States with assets exceeding \$500,000,000; (5) interest-bearing bonds of any county, township, city, village, incorporated town, municipal corporation or school district; (6) fully collateralized repurchase agreements; (7) the State Treasurer's Illinois and Prime Funds; and (8) money market mutual funds and certain other instruments.

At June 30, 2015, the District's cash and investments consisted of the following:

	Governmental	Fiduciary	Total
Cash and investments	\$ 60,068,082	\$ 1,289,836	\$ 61,357,918

For disclosure purposes, this amount is classified into three components:

	Total
Deposits with financial institutions	\$ 31,331,977
Illinois School District Liquid Asset Fund Plus	16,962,002
Illinois Institutional Investors Trust	13,063,939
	\$ 61,357,918

1. Interest Rate Risk

The District's investment policy seeks to ensure preservation of capital in the District's overall portfolio. The highest return on investments is sought, consistent with the preservation of principal and prudent investment principles. The investment portfolio is required to provide sufficient liquidity to pay District obligations as they come due, considering maturity and marketability. The investment portfolio is also required to be diversified as to maturities and investments, as appropriate to the nature, purpose, and amount of funds.

Community Unit School District 200
NOTES TO THE ANNUAL FINANCIAL REPORT

NOTE C - DEPOSITS AND INVESTMENTS (Continued)

2. Credit Risk

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) is an unrated, not-for-profit investment trust formed pursuant to the Illinois School Code and managed by a Board of Trustees, elected from participating members. It is not registered with the SEC as an investment company, but operates in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments are valued at share price, which is the price for which the investment could be sold.

The Illinois Institutional Investors Trust (IIIT) is an unrated, not-for-profit investment trust formed pursuant to the Illinois School Code and managed by a Board of Trustees, elected from participating members. It is not registered with the SEC as an investment company, but operates in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments are valued at share price, which is the price for which the investment could be sold.

3. Concentration of Credit Risk

The District's investment policy requires diversification of the investment portfolio to minimize the risk of loss resulting from overconcentration in a particular type of security, risk factor, issuer, or maturity. The policy requires diversification strategies to be determined and revised periodically by the District's Investment Officer to meet the District's ongoing need for safety, liquidity, and rate of return.

4. Custodial Credit Risk

With respect to deposits, custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured by collateral in the event of default or failure of the financial institution holding the funds. At June 30, 2015, the bank balances of the District's deposits with financial institutions totaled \$31,702,624, all of which was fully insured or collateralized.

With respect to investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy limits the exposure to investment custodial credit risk by requiring that all investments be maintained by third parties.

NOTE D - SPECIAL TAX LEVY

Special Education Tax Levy

Revenues from the special education tax levy and the related expenditures have been included in the operations of the Educational Fund. Because cumulative expenditures exceeded cumulative revenues, there is no fund balance restriction.

NOTE E - CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2015 was as follows:

NOTE F - LONG-TERM LIABILITIES (Continued)

2. General Obligation Bonds (Continued)

These payments will be made from amounts budgeted from the debt service tax levies in future periods. There is \$11,104,938 in the Debt Service Fund to service the outstanding bonds payable.

The District is subject to the Illinois School Code, which limits the bond indebtedness to 13.80% of the most recent available equalized assessed valuation of the District. As of June 30, 2015, the statutory debt limit for the District was \$367,335,691, of which \$192,727,761 is fully available.

In prior years, the District defeased certain general obligation bonds and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased debt are not included in the District's financial statements. At June 30, 2015, \$102,550,000 of bonds principal outstanding are considered defeased.

3. Capital Lease

The District currently has a lease agreement for financing the acquisition of technology equipment. The obligations for these loans will be repaid from the Debt Service Fund. The future cash flow requirements for the lease are as follows:

	<u>Year Ending</u> <u>June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$	222,523	\$ 15,819	\$ 238,342

NOTE J - RISK MANAGEMENT

The District is exposed to various risks of loss related to employee health benefits; workers' compensation claims; theft of, damage to, and destruction of assets; and natural disasters. The District purchases coverage against such risks and participates in the following public entity risk pools: School Employee Loss Fund (SELF) for worker's compensation claims; and Collective Liability Insurance Cooperative (CLIC) for property damage and injury claims. The District pays annual premiums to the pools for insurance coverage. The arrangements with the pools provide that the pools will be self-sustaining through member premiums, and will reinsure through commercial companies for claims in excess of certain levels established by the pools. Settlements have not exceeded coverages for each of the past three fiscal years.

The District is self-insured for health and medical coverage that is provided to District personnel. A third-party administrator administers claims for a monthly fee per participant. Expenditures are recorded as incurred in the form of direct contributions from the District to the third-party administrator for payment of employee health claims and administration fees. The stop-loss coverage limits for the year ended June 30, 2015 were \$225,000 for individual claims and \$17,060,000 for aggregate claims.

At June 30, 2015, total unpaid claims, including an estimate of claims that have been incurred but not reported (IBNRs) to the administrative agent, totaled \$569,244. These estimates are developed based on reports prepared by the administrative agent. The District does not allocate overhead costs or other nonincremental costs to the claims liability.

Claims liabilities during the past two years are as follows:

	June 30, 2015	June 30, 2014
Unpaid claims, beginning of fiscal year	\$ 2,181,303	\$ 1,946,213
Incurred claims (including IBNRs)	10,431,125	14,900,851

NOTE K - PENSION LIABILITIES

1. Teachers' Retirement System of the State of Illinois

General Information about the Pension Plan

Plan Description

The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at <http://trs.illinois.gov/pubs/cafr>; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 877-0890, option 2.

Benefits Provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

NOTE K - PENSION LIABILITIES (Continued)

1. Teachers' Retirement System of the State of Illinois (Continued)

Contributions

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2015, was 9.4 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On-behalf Contributions to TRS

The state of Illinois makes employer pension contributions on behalf of the employer. For the year ended June 30, 2015, state of Illinois contributions recognized by the District were based on the state's proportionate share of the collective net pension liability associated with the District, and the District recognized revenue and expenditures of \$42,989,260 in pension contributions from the state of Illinois.

2.2 Formula Contributions

Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2015, were \$500,859, and are deferred because they were paid after the June 30, 2014 measurement date.

Federal and Special Trust Fund Contributions

When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the employer to pay an employer pension contribution from those funds. Under a policy adopted by the TRS Board of Trustees that has been in effect since the fiscal year ended June 30, 2006, employer contributions for employees paid from federal and special trust funds will be the same as the state contribution rate to TRS. Public Act 98-0674 now requires the two rates to be the same.

For the year ended June 30, 2015, the employer pension contribution was 33.00 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2015, salaries totaling \$721,171 were paid from federal and special trust funds that required employer contributions of \$237,986. These contributions are deferred because they were paid after the June 30, 2014 measurement date.

Early Retirement Cost Contributions

Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members retiring under the Early Retirement Option (ERO). The payments vary depending on the member's age and salary. The maximum employer ERO contribution under the current program is 146.5 percent and applies when the member is age 55 at retirement. For the year ended June 30, 2015, the District paid \$132,976 to TRS for employer ERO contributions.

The District is also required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2015, the District paid \$4,335 to TRS for employer contributions due on salary increases in excess of 6 percent and \$3,058 for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follow:

District's proportionate share of the net pension liability	\$ 12,709,081
State's proportionate share of the net pension liability associated with the District	<u>533,957,662</u>
Total	<u><u>\$ 546,666,743</u></u>

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013, and rolled forward to June 30, 2014. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2014, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2014, the District's proportion was 0.0208830794 percent.

1. Teachers' Retirement System of the State of Illinois (Continued)

The net pension liability as of the beginning of this first measurement period under GASB Statement No. 68 was measured as of June 30, 2013, and the total pension liability was based on the June 30, 2013, actuarial valuation without any roll-up. The District's proportion of the net pension liability as of June 30, 2013, was based on the District's share of contributions to TRS for the measurement year ended June 30, 2013, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2013, the District's proportion was 0.0303591837 percent.

For the year ended June 30, 2015, the District recognized pension expense of \$43,992,384 and revenue of \$42,989,260 for support provided by the state. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial Assumptions

The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00 percent
Salary increases	5.75 percent, average, including inflation
Investment rate of return	7.50 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 White Collar Table with projections using scale AA that vary by member group.

Actuarial Assumptions (Continued)

For GASB disclosure purposes, the actuarial assumptions for the years ended June 30, 2014 and 2013 were assumed to be the same. However, for funding purposes, the actuarial valuations for those two years were different. The actuarial assumptions used in the June 30, 2014 valuation were based on updates to economic assumptions adopted in 2014 which lowered the investment return assumption from 8.0 percent to 7.5 percent. The salary increase and inflation assumptions were also lowered. The actuarial assumptions used in the June 30, 2013 valuation were based on the 2012 actuarial experience analysis and first adopted in the June 30, 2012 valuation. The investment return assumption was lowered from 8.5 percent to 8.0 percent and the salary increase and inflation assumptions were also lowered. Mortality assumptions were adjusted to anticipate continued improvement in mortality.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. large cap	18 %	8.23 %
Global equity (excluding U.S.)	18	8.58

Discount Rate

The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially-funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. Therefore, the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

	<u>1% Decrease</u> <u>(6.50%)</u>	<u>Current</u> <u>Discount</u> <u>(7.50%)</u>	<u>1% Increase</u> <u>(8.50%)</u>

2. Illinois Municipal Retirement Fund

Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, postretirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed with the Illinois Municipal Retirement Fund (IMRF), the administer of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the Benefits Provided section below. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. That report is available for download at www.imrf.org.

Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP).

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of 3% of the original pension amount, or 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2014, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	528
Inactive plan members entitled to but not yet receiving benefits	1,125
Active plan members	533
Total	<u><u>2,186</u></u>

Contributions

As set by statute, the District's regular plan members are required to contribute 4.5 percent of their annual covered salary. The statute requires the District to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. This actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year. The contribution rate for calendar year 2014 used by the District was 11.45 percent of annual covered payroll. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by state statute.

Net Pension Liability

The District's net pension liability was measured as of December 31, 2014. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2014:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Market Value of Assets
Inflation	3.50%
Price Inflation	2.75%
Salary Increases	3.75% to 14.50% including inflation
Investment Rate of Return	7.49%
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2014 valuation pursuant to an experience study of the period 2011-2013.

Mortality

For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projections scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied fro non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic Equity	38%	7.60%
International Equity	17%	7.80%
Fixed Income	27%	3.00%
Real Estate	8%	6.15%

Single Discount Rate

A Single Discount Rate of 7.49% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- a. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- b. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.50%; the municipal bond rate is 3.56%; and the resulting single discount rate is 7.49%.

3. Social Security/Medicare

Employees not qualifying for coverage under the Illinois Teachers' Retirement System or the Illinois Municipal Retirement Fund are considered "nonparticipating employees". These employees and those qualifying for coverage under the Illinois Municipal Retirement Fund are covered under Social Security/Medicare. The District paid the total required contribution for the current fiscal year.

NOTE L - OTHER POSTEMPLOYMENT BENEFITS

1. Teachers' Health Insurance Security (THIS)

The District participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. Effective July 1, 2012, in accordance with Executive Order 12-01, the plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to the THIS Fund.

The percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

On behalf contributions to the THIS Fund

The state of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to the THIS Fund from active members which were 1.02 percent of pay during the year ended June 30, 2015. State of Illinois contributions were \$880,820 and the District recognized revenue and expenditures of this amount during the year.

Further Information on the THIS Fund

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: <http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp>. The current reports are listed under "Central Management Services." Prior reports are available under "Healthcare and Family Services."

2. Retiree Health Plan

Plan Description

The District administers a single-employer defined benefit healthcare plan ("the Plan"). The plan provides benefits for eligible retirees and their spouses through the District's plan which covers both active and retired members. Benefit provisions are established through personnel policy guidelines and state that eligible retirees and their spouses receive coverage at established contribution rates. The Plan does not issue a publicly available financial report.

Funding Policy

Contribution requirements are established through personnel policy guidelines and may be amended by the action of the governing body. The District makes the same monthly health insurance contribution on behalf of the retiree as it makes on behalf of all other active employees during that year. The District contributes all of the current year premiums for both a family and a single plan, for eligible retired plan members and their spouses. For fiscal year 2015, the District contributed \$380,668 to the plan for retirees.

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net estimated OPEB obligation to the Retiree Health Plan:

Funding Status and Funding Progress

As of June 30, 2015, the actuarial accrued liability for benefits was \$3,290,786, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) and the ratio of the unfunded actuarial accrued liability to the covered payroll were not available.

The projection of future benefit payments for an ongoing plan involved estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following simplifying assumptions were made:

Contribution rates:	
District	Not applicable
Plan members	0.00%
Actuarial measurement date	July 1, 2013
Actuarial cost method	Projected unit credit
Amortization period	Level Dollar Amount, Open
Remaining amortization period	30 years
Asset valuation method	Market

NOTE M - FUND BALANCE

In the fund financial statements, governmental funds now report five components of fund balance: nonspendable, restricted, committed, assigned, and unassigned. The Regulatory Model, followed by the District, only reports reserved and unreserved fund balances. Below are definitions of the difference and a reconciliation of how these balances are reported.

1. Generally Accepted Accounting Principles

- a. *Nonspendable* - includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The nonspendable in form criteria includes items that are not expected to be converted to cash, such as prepaid items or inventories.
- b. *Restricted* - refers to amounts that are subject to outside restrictions such as creditors, grantors, contributors, or laws and regulations of other governments, or are imposed by law through enabling legislation. Special revenue funds are by definition restricted for those specified purposes.
- c. *Committed* - refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision-making authority (the Board of Education). The Board of Education commits fund balances by passing a resolution. Amounts committed cannot be used for any other purpose unless the District removes or changes the specific use by taking the same type of formal action it employed to previously commit those funds. As of June 30, 2015, the District has no committed fund balance.
- d. *Assigned* - refers to amounts that are constrained by the District's intent to be used for a specific purpose, but are neither restricted nor committed. Intent may be expressed by the Board of Education or the individual to which the Board of Education delegates the authority to assign amounts to be used for specific purposes. The Board of Education has declared that the Superintendent or the Superintendent's designee may assign amounts for a specific purpose. The District had no assigned funds at June 30, 2015.
- e. *Unassigned* - refers to all spendable amounts not contained in the other four classifications described above. In funds other than the General Fund, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, assigned balances, and, finally, they act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

NOTE M - FUND BALANCE (Continued)

2. Regulatory Model

- a. Reserved Fund Balances are those balances that are reserved for a specific purpose, other than the regular purpose of any given fund.
- b. Unreserved Fund Balances are those balances that are not reserved for a specific purpose, other than the regular purpose of any given fund.

3. Reconciliation of Fund Balance Reporting

The first five columns of the following table represent Fund Balance Reporting according to generally accepted accounting principles. The last two columns represent Fund Balance Reporting under the regulatory basis of accounting utilized in preparation of the financial statements.

NOTE N - JOINT AGREEMENTS

The District is a member of the School Association for Special Education in DuPage County (SASED) and Cooperative Association for Special Education (CASE), joint agreements that provide certain special education services to residents of many school districts in DuPage County. The District believes that because it does not control the selection of the governing authority, and because of the control over employment of management personnel, operations, scope of public service, and special financial relationships exercised by the joint agreement governing boards, these should not be included

Complete financial statements for the School Association for Special Education in DuPage County (SASED) can be obtained from its business office at 6 S 331 Cornwall Road, Naperville, Illinois 60540.

NOTE O - CONSTRUCTION COMMITMENTS

The District has certain commitments in various funds for constructions projects which have been approved by the Board of Education at June 30, 2015. Commitments approximate \$618,000 at June 30, 2015.

NOTE P - CONTINGENCIES

1. Litigation

The District is not involved in any significant litigation. With regard to other pending matters, the eventual outcome and related liability, if any, are not determinable at this time. No provision has been made in the accompanying financial statements for settlement costs.

2. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

NOTE Q - SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 14, 2015, the date that these financial statements were available to be issued. Management has determined that no events or transactions have occurred subsequent to the balance sheet/statement of net position date that require additional disclosure in the financial statements, other than the item described below.

On August 4, 2015, the District issued \$6,140,000 of General Obligation Refunding School Bonds Series 2015 for the purpose of refunding prior bond issuances.
