January 2020

Dear District 200 Students and Families,

The mission of Community Unit School District 200 is to inspire, educate, challenge, and support all students to reach their highest level of learning and personal development. Achieving our mission is not possible without a strong and thoughtful path through high school that leads to a meaningful post-secondary choice. Wheaton North High School and Wheaton Warrenville South High School are dedicated to the academic growth of our students to ensure that they are college and/or career ready.

The “2020-21 High School Course Catalog” provides you with information about available courses and support services, and serves as a resource to you throughout the school year. Over the years, many new courses have been developed to provide you with opportunities to explore a variety of career areas. Options are also available to earn college credits through increased advanced placement offerings.

As students plan their course selections, I encourage you to take advantage of the resources that are available to help you. Working together, parents, students and the schools can ensure that wise decisions are made concerning programs and course selections during the secondary school years. Our high school counseling staffs, the schools’ administrative teams, department chairs, and individual teachers are prepared to assist you at every turn. They can explain the course structure, the graduation requirements, and develop an individual plan that will help you meet your personal goals.

It has been my personal experience that students are most successful when the schools and families work together. On behalf of our high school staffs, I welcome your involvement and look forward to developing a partnership that will enable each child to have a successful and meaningful high school experience.

Sincerely,

Dr. Jeff Schuler
Superintendent
