Matt Marzullo,
Modified Physical Activity Coordinator

The State of Illinois requires all high school students to be enrolled in a physical education program for each semester they are in school. At times, a student may need a medical adaptation for participating in a physical activity. Wheaton Warrenville South High School has a complete fitness room equipped with cardiovascular equipment, selectorized weight machines and additional weight and non-weight bearing rehabilitative equipment.

We wish to provide this student with the most appropriate educational experience. Therefore we ask your assistance in determining what modifications should be made, and which of the following programs are most appropriate for this student:

STUDENT'S NAME: _____ **DATE:** _____

DIAGNOSIS: _____ **TEACHER:** _____

DATE OF NEXT APPOINTMENT: _____

ADDITIONAL COMMENTS: _____

PHYSICIAN'S SIGNATURE _____

PLEASE PRINT PHYSICIAN'S NAME _____

PHONE: _____ **DATE:** _____

Modified P.E. Coordinator may contact the physician for clarification

PARENT'S SIGNATURE _____ **DAY PHONE:** _____

Would you like to be contacted by the Modified P.E. Coordinator? Yes No

Please check one of the following:

MAY RETURN TO REGULAR PHYSICAL EDUCATION ON (indicate date) _____

MAY PARTICIPATE IN REGULAR PHYSICAL EDUCATION WITH THE FOLLOWING RESTRICTIONS: _____

MAY RETURN TO REGULAR PHYSICAL EDUCATION IN THESE SPECIFIC ACTIVITIES:

MAY PARTICIPATE IN ADAPTIVE PHYSICAL EDUCATION

AEROBIC ACTIVITIES

- Aerobic Steps
- Ellipticals
- Jogging
- Running
- Stair Master
- Stationary Bike
- Treadmill

FLEXIBILITY

- Neutral Spine Exercise
- Stretching (P.N.F./Static)
- Williams Flexion Exercise

OTHER ACTIVITIES

- _____
- _____

MAY USE SELECTORIZED – RESISTANCE MACHINES

All selectorized machines provide a non-weight bearing exercise position. Designs of our machines operate on a cam-lever & pulley system, allowing the participant to select the resistance while in a sitting-exercise position. Increments of resistance start at a load equal to 10 lbs. And increase at variables of 5 lbs. Range of limitation controls are available on the machines listed below. Starting and ending points of limitations can be established between 10-90 degrees of motion. Product protocol would be similar to “Cybex”.

MUSCLES/MACHINES
