

Three Little Pigs Unit

The OT lesson was a multi-sensory lesson followed by an art activity. The following is the rationale for the lesson:

- Eye/Hand Coordination: Toss bean bags into the pig's mouth to feed him
- Vestibular: Children spun around then asked to close eye to play "pin the tail on the pig"
- Proprioception/Heavy Work: Children jumped and tried to flatten the "houses" (therapeutic bean bag)
- Art/Fine Motor: Children colored a pig picture, squeezed eye dropper full of brown paint and then blew through a straw to splatter the "mud"
