- Taking food orders while playing restaurant or making a menu.

Hints

Writing words

To help your child succeed, you can:

- Write simple words that describe what you and your child are doing (cook, taste, stir).
- Add simple pictures to the words. The pictures will help your child recognize the words.
- Take a product with a big label and have your child copy words from the label.

To make his activity more challenging, you can:

- Let your child write words without your help.
- Have your child draw a picture and write some words that describe his/her picture (red, house and cat).
- Have your child sound out each letter.
- Have your child write simple phrases (Happy Birthday, I love you).
- The letters don't need to be perfect and invented spelling is OK.
