

## Activity

# Numbers Are Everywhere

Numbers are everywhere - on buses, houses price tags, license plates, clocks, books, songs.

- Ask your child to look for numbers.
- Look at books about numbers.
- Help your child learn the names of numbers.
- Talk about the different things people use numbers for - like finding the right house or bus, knowing how much things cost or what the time is.

## Hints

# Numbers Are Everywhere

*To help your child succeed, you can:*

- Point to a number and say its name.
- Start with *one*. Have several things and ask your child to give you *one* and only one thing.
- Give your child plastic numbers to play with.
- Sing counting songs (One, Two, Buckle My Shoe).

*To make this activity more challenging, you can:*

- Help your child use numbers to count and measure how long, tall and heavy different things are.
- Help your child use numbers to find a house or a bus.
- Help your child use numbers to tell the time or to buy things.
