

Enriching the quality of play through sporting and leisure activities

## School's Out Camps

Let's Play Kid's Camps are a series of camps designed and taught for the Wheaton Park District by two Physical Education teachers with more than 25 years combined teaching experience. Mr. Bogosian and Mr. Cortesi have developed a program that not only focuses on fun and fitness, but the importance of sportsmanship, a healthy lifestyle, and communication skills needed for success both on and off the field. We call these Playmaker Values, and they are at the core of every camp that we teach.

### Let's Play Team Handball

This hour and 15 minute long camp is based on a modified version of the Olympic Team Handball. This is a fast-paced game that has elements of basketball and hockey. In this camp, instructors teach offense, defense, game strategy, and sportsmanship as well as ball handling skills.

Age	Session Dates	Time	Fee	Class #
