

To help your child prepare for sharing valentines, I have included a class list. I also included the names of some of Whittier's special teachers whom your child may want to remember. Your child may also want to send a valentine to the other third grade teachers or previous teachers. I tried to include teachers who interact with our children on a weekly basis. The list is not exhaustive so if your child suggests a valentine for an adult not listed, go for it! If your child is bringing valentines to school, he or she must bring valentines for every student in our room.

Valentines should not come with candy attached to them. Due to several allergies and the current wellness policy, we will exchange only cards. Our classroom party will still feature an allergen-free food treat.
